

*TransPacket ([www.transpacket.com](http://www.transpacket.com)) has patented and developed the FUSION technology for optical Ethernet transport with extremely low and fixed latency. The TransPacket Fusion Technology defines new market rules for packet based data traffic by bringing characteristics from line- and TDM-based networks into the high throughput packet based networks. Current products targets applications within mobile infrastructure, energy and utility markets, transport, data centers and trading. The technology now proves an enabler for bringing Ethernet into new markets. The company's headquarter is at Skøyen, Oslo, Norway.*

**Our business is growing and we are searching for a**

## **System Designer**

Targeting new markets for deterministic Ethernet applications, we are recruiting a system engineer with deep technical knowledge of Ethernet and packet transport. You will be responsible for writing product specifications and requirements for products and applications of TransPacket's unique and patented Fusion technology. You will take the "system view", and assist in understanding customers' use cases, and translating customers' requirements into specification. You will act as an interface between the Product Management and the R&D departments, and will also provide technical support in meeting with customers.

### **Skills and Qualifications**

- Experience with system design and/or electronics or software development
- Experience with requirements definition and analysis is a benefit
- Experience in Ethernet and Telecom
- Self-motivated with ability to initiate, follow up and complete activities.
- Preferably experience from small organizations – e.g. high tech startups
- Competitive, creative and articulate
- Excellent English communication skills – verbal as well as written.
- Ability to work under high pressure and to deliver on schedule.
- BSc. or MSc. degree in relevant disciplines.

Our offices are easily reachable at Skøyen in central Oslo. For more information please check out our web pages at [www.transpacket.com](http://www.transpacket.com) or call CTO Steinar Bjørnstad (+ 47 900 81 033) or Business Development Manager, Mickaël Fontaine (+47 950 55 689).
