

TransPacket (www.transpacket.com) has patented and developed a unique technology for optical Ethernet transport with low and fixed latency. TransPacket defines a new class of service for packet based data traffic by bringing characteristics from line- and TDM-based networks into Ethernet, while simultaneously offering the high utilization and good performance expected in packet based networks. The IP Core products from TransPacket offer significant value for applications within 5G mobile infrastructure, and applications within optical transport for access and metro networks. The company's headquarter is in Oslo, Norway

Our business is growing and we are searching for a

System Engineer

Targeting new markets for deterministic Ethernet applications, we are recruiting a system engineer with technical knowledge of Ethernet and packet transport. You will join our highly competent and dynamic system team being responsible for defining and performing system testing and will also contribute to product specifications and requirements for products and applications of TransPacket's unique and patented Fusion technology. You have the ability to grow with increased responsibility and working tasks will be given accordingly.

Skills and Qualifications

- Experience with system testing and/or electronics or software development
- Experience with Ethernet, Telecom and specification work is a benefit
- Self-motivated with the ability to initiate, follow up and complete activities
- Competitive, creative and articulate
- Excellent English verbal and written communication skills
- Ability to work under high pressure and to deliver on schedule
- Minimum three years experience is a benefit. Newly graduated will also be considered.
- BSc. or MSc. degree in relevant disciplines.

Our office is easily reachable at Skøyen, close to the center of Oslo. For more information about TransPacket, please check out our web pages at www.transpacket.com or call CTO Steinar Bjørnstad at + 47 900 81 033.

Please submit your application and CV electronically to: careers@transpacket.com
